DECORATION

EMBROIDERY

Nothing beats the quality feel of classic needlework. Created by using a special machine that is programmed to stitch a design that combines texture, pattern and color. We offer quality embroidery, digitization and typeset services.

SCREEN PRINT

Most cost effective print method, especially on volume orders. Low minimum order. Print on any fabric. Prints highly vibrant colours that can be accurately matched. Can utilize speciality-printing methods to achieve unique looks and feel.

TACKLE TWILL

A form of appliqué created using polyester twill material which is layered and applied to the garments with a border stitch. Canada Sportswear offers various options from collegiate look logos to personalization with numbers and letters.

APPLIQUE / REVERSE APPLIQUE

Available in a variety of fabrics and application stitching. Appliqué can be combined with embroidery to create a unique look.

HEAT TRANSFER

Canada Sportswear offers heat transfer solution for your logo or unique design. This digital printing process utilizes high temperature to transfer and adhere your design to the fabric surface.

CHENILLE

A type of embroidery made from loops of yarn, resulting in a finished design with soft, fuzzy appearance. It offers a sophisticated collegiate or high end corporate look with tactile richness that only chenille can offer.

SEAMLESS HEAT TRANSFER

Seamless transfers are designed to eliminate excess printed area or key-line surrounding a complex logo. Whether it's detailed text or complex graphics, seamless transfers can be used to achieve a clean look with perfectly weeded out transfers.

REFLECTIVE TRANSFER

Engineered to reflect light, our reflective transfers are designed to increase visibility for workers, joggers or anyone who spends time outside. We use premium quality 3M reflective transfers.

LASER ETCHING

A process that uses laser technology to engrave or burn a mark into the fabric. This technique is perfect for our micro fleece, denim, softshell and performance polyester fabrics.

EMBOSS / DEBOSS

This decoration process creates raised (embossed) or sunken (debossed) designs on the fabric surface. Both of these decorative effects work well with leather garments. But why stop there? Canada Sportswear also offers premium emboss or deboss options for many of our other fabrications.

SUBLIMATION

From simple logo placement to stunning graphics with photorealistic details, dye sublimation is ideal for team uniforms and promotional apparel made with polyester fabrics.

FLOCK TRANSFER

Flock transfers take your design to a whole new dimension. The faux finish and three dimensional appearance is great for adding texture to any design.

LEXTRA

Lextra adds a 3 dimensional look to your logo with the use of mixed media. The richly textured, high sheen lextra is combined with the velvet flock like layers to create compelling logos.

FlexFX

NEW versatile 3D decoration that can have a metallic or non-metallic finish, combined with unique textures and effects.

PATCHES

We offer premium quality embroidered, sublimated, PVC and woven patches that can be sewn on or heat sealed onto the fabrics.
